## Rural and Community Care & Adult Ambulatory Care Clerkship Clinical Faculty

# T.O.M.E. Newsletter

"Teacher Oriented Medical Education" Newsletter

To All Clinical Faculty Preceptors:

### IMPORTANT CLERKSHIP STAFFING CHANGE NOTICE

Most of you already know that Cindy Villanueva, who served as program coordinator for over 5 years moved on to a new position in August.

Two new staff will now be working with you to support your great job teaching our medical students. You may have met or heard from Katie Watts already, but you will also be hearing from our new placement coordinator, Brenda Baumgarten in the next several weeks as we finalize arrangements for future Rural and Community Care clerkship rotations.

**Katie Watts**

Katie took over many of Cindy Villanueva's duties in August and will be your contact person for educational issues related to the Rural and Community Care clerkship and other Department of Family Medicine programs. Call on her with questions about our clerkship curriculum, evaluations, student issues and questions.

[Katie.watts@ucdenver.edu](mailto:Katie.watts@ucdenver.edu)

**Brenda  
Baumgarten**

Brenda is from the AHEC (Area Health Education Center) System office. She will be managing the placement of medical students in your office. She will be in charge of recruiting and supporting our preceptors and will be your contact person for medical student community placements effective immediately.
